Stardust

Jewellery and fashion designer Graziella Paletta (she also works as a set and costume designer, a painter, a portraitist, an inventor of accessories and elegant solutions) presents 'My Star', a collection which is like an expanding universe.

Make a wish, there is a shooting star. Non just one, in fact, there are infinite stars; they have been created by Graziella Paletta, the eclectic artist from Alessandria, who has devoted her life to giving life to little great moments of happiness in all fields. Today's topic is jewellery. Graziella produced the 'My Star' brand for women from all over the world to participate in her mission: dreaming about never ending stories. Some (included Graziella) have called this mission love. Graziella wanders about and chooses the boldest and smartest adventures for the heart and the mind: 'My Star' is the symbol of the joy lying within change. Each line is produced in three versions: Exclusive Luxury (with precious stones), Timeless Elegance (a modern version with semi-precious stones), and Original Charme (unusual and innovative).

'My Star' jewellery is full of colour; it can be easily matched with bags and shoes. In fact, as in all of Graziella Paletta's collections, the look of the jewels changes depending on how they are assembled.
